

Water Bottle Sling

1. Cut 2 pieces of fabric - 11 1/2" w x 9 1/2" h for front and lining. Also cut interfacing to the same dimensions.
2. Cut a piece of fabric 40" x 3 1/2" for strap.
3. Press strap fabric in half, then bring edge to center fold and press. Fold and press again. Top stitch both edges.
4. Fold outside piece in half, right sides together, and stitch using a 1/4" seam. With the seam in the back, bring side to bottom and stitch 1" to miter corner, forming a triangle.
5. For the lining, follow the instructions in Step 4, but leave about a 3" opening.
6. Pin strap to lining sides, stitch outer and lining together on top (right sides together).
7. Turn right side out from opening of lining.
8. Top stitch around top edge.
9. Slip stitch lining opening or machine stitch closed.
